Interviews

Anna Gullot opera in ambiti linguistici intermediali. Tra gli anni '80 e '90 lavora con gruppi e protagonisti della ricerca verbo-visiva italiana. Come artista-ricerchiera è dedita a progetti di ricerca su spazio e tempo, su scrittura e immagine. Ai Belle Arti di Catania - suoi ambienti privilegiati sono l'investigazione dello spazio e la dimensione progettuale dell'oggetto - con progetti di ricerca come "Carte d'arte" (1986) o "Carte d'arte il crossover linguistico, in particolare nella ricerca tecnologica applicata, confluisce nel 2008, a Catania, nella creazione del KodookArchive. Nella sua ricerca si sovrappongono le discipline di verifica On the Contemporary. Negli anni '90 ha co-diretto "Carte d'arte" ed è stata redattrice di riviste specializzate, da 2003 a 2006 "Carte d'arte. Città e territorio", che ha pubblicato i lavori a selezione. Ha deputato interventi site-specific per la Terra e il Paesaggio, a Bruxelles, per gli otto paesi partenari del Progetto Europa e San Marco, con opere contemporanee. Tematica della ricerca foto-grafica di Anna Gullot è l'ambiente, in particolare il progetto nome Il Belbot ed estesa ai luoghi, ovvero attraverso di connettori psicogeografico-linguistici e prossimico-anthropologici.

Anna Gullot works in intermediate language fields. From the 1980s up to the year 2000 she worked with groups and protocols of research on the Italian verbal-visive field. As an artist teacher and researcher - she is a professor of multimedia installation at the Faculty of Fine Arts in Catania, Italy - her favored areas are the space and time dimension, writing and image. In particular for applied research such as "Carte d'arte" (1986) or "Carte d'arte il crossover linguistico, in particular in the technological research area, converges in 2008 in Catania in the creation of the KodookArchive, the periodical "Carte d'arte" and, in 2018, the space On the Contemporary. In the 1990s she has devoted herself to projects of research on space and time, for other specialized journals; since 2000 she has collaborated with "Arte e Critica". Since the 1980s she has participated in selected projects of the European Union, in particular the project of Federick I of Sweden in Enna, I, for the San Lorenzo and Mercurio oratories in Palermo, I, and for other historical and contemporary sites. The main theme of Anna Gullot's photo-graphic research is identity, from the single entity of one's own name to the Selbst and extended to physical sites, regions with psychological-ideological and proxemic-anthropological connotations.
